### **Acquisitions Information and Provenance**

In a memorandum from Fred Cachola to Rowena Blaisdell, the following is stated:

The enclosed inventory represents special items acquired by our programs at various times during the development of our Community Education Programs. The special nature of this inventory warrants special treatment. The inventory includes basic information about our acquisition, descriptions, comments and recommendations for future dispositions. Polaroid photos are attached to each of the individual reporting forms for these unique items.

The inventory attached does not include Polaroid photos, but includes photocopies of some Polaroid photographs. Janet Zisk, the archivist first hired in 1992, received this collection. Her notes are written on the copy of the memorandum. Most artifacts were stored in the Archives. Pauahi's bowl, though Janet thought it was of dubious origins, was heavily used in every one of Janet's presentations as the only known item at Kamehameha Schools Archives belonging to Pauahi.

Items from this inventory are being located and re-housed for future use.

### Historical Note

The Community Education Program was directed by Fred Cachola, KSB 1953. From the 1994-1995 *Annual Report of The Kamehameha Schools, the following is written:*

In 1962, the Trustees sought and received permission from the courts to offer educational programs to students not enrolled in the K-12 Kapālama campus program. That historical decision enabled KSBE to reach a broader spectrum of Hawaiians. It allowed for the development of programs and services from pre-natal to post-high counseling and scholarships and adult education. Thus was established the Extension Education Division which later split into the Early Education Division and the Community Education Division (DEC). Outreach services beginning the summer of 1963, when Kamehameha's first summer program enrolled 388 students in seven schools serving Hawaiian Homestead communities throughout the State.

From those modest beginnings, Kamehameha's "reach" grew remarkably, averaging over 25,000 beneficiaries for the past 10 years. During the past year, CED served 31,299 people. If we added this beneficiary group to those of the Early Education Division KSBE served in excess of 28,000 people during FY 1994-95. Reaching thousands of beneficiaries in addition to maintaining the second largest private school in the United States has been truly one of the most remarkable accomplishments of any private educational institution in the world. (p.3)

The Community Education Division was reorganized during the 1995-1996 school year and ceased to exist in its original form. It became the Enrichment Division and its organizational structure was simplified. (See the 1995-1996 *Annual Report of The Kamehameha Schools.*)
